Portfolio

Summary

Economics postgraduate with hands-on experience in analyzing large datasets, building dashboards and generating actionable business insights. Proficient in Python, SQL, Power BI and Excel with exposure to real-world data across finance, retail and banking domains. Skilled at transforming raw data into clear, decision-ready reports that drive business strategy.

Skills

Programming & Querying: SQL, Python

Data Visualization Tools: Advanced MS Excel, Power BI, Tableau

Analytical Abilities: Data Cleaning, Exploratory Data Analysis (EDA), Insight Generation, Descriptive Statistics, Econometrics

Internship

Research Intern, IIT Patna

Jun 2025 – Aug 2025

Project 1: Monetary Policy & Financial Market Strategy

- Reviewed **6+ years** of central bank communications to measure their effect on investor expectations and short-term yield volatility across key policy cycles.
- Policy signaling was found to drive a **10% shift in yield volatility**, suggesting that communication clarity is a measurable driver of market credibility.

Project 2: RBI Macro Forecasting & Econometrics

- Built a macroeconomic forecast model using time-series data from **12 RBI SPF reports (2021–2022)** across CPI, WPI, GDP, GVA and repo rate; achieved **$R^2 \sim 0.75$** and reduced forecast error by **15%** over historical averages.
- Results revealed identifiable patterns in macroeconomic variables under stable monetary conditions, directly applicable to credit risk assessment and financial stress forecasting.

Projects

Credit Card Default Prediction & Credit Risk Analysis — GitHub

Sep 2025 – Nov 2025

- Found that **recent repayment behavior (PAY_0, PAY_2)** predicts default better than credit limit or demographics – models trained on **30,000 records** confirmed this with **$\sim 82\%$ accuracy**.
- Result can be directly used to flag high-risk borrowers early, making it useful for NPA management in real banking scenarios.

Retail Business Analytics using SQL — GitHub

Aug 2025 – Sep 2025

- Found that **top 10 customers were driving most of the revenue** across **400K+ transactions** – a clear concentration risk that points directly to where retention efforts should be focused.
- Seasonal patterns in MoM revenue data showed when the business peaks and dips, giving a factual base for demand planning instead of assumptions.

Bank Loan Portfolio Analysis (Power BI Dashboard) — GitHub

Apr 2025 – May 2025

- Found a **13.8% charged-off loan rate** and geographic concentration risk across a **\$435.7M portfolio** – patterns that were not visible without the dashboard and directly inform lending strategy.
- MTD/MoM tracking gave a running view of portfolio health, making it easier for decision-makers to spot stress signals before they escalate.

Hospitality Operational Performance Dashboard — GitHub

Jan 2025 – Feb 2025

- Traced revenue leakage and low-performing segments across **50,000+ records**, giving management a clear picture of where resources were being wasted.
- Recommendations built from the analysis projected a **20% gain in operational efficiency** – grounded in data, not assumptions.

Positions of Responsibility

Communication Coordinator, Alumni Committee – GIPE, Pune

Sep 2024 – Present

- Led content creation and editorial planning for TEDxGIPE and Alumni Convention, coordinating external communication and webinar outreach strategies that improved participant engagement across multiple events.

General Secretary, Women Development Cell – ARSD, Delhi University

Sep 2021 – Apr 2023

- Directed **15+ volunteers** and managed annual activity budget to run gender awareness campaigns, successfully reaching **1,000+ students** on campus through structured programs and resource planning.

Awards & Certifications

- Python: Beginner to Advanced** – Codebasics (2026)
- MySQL Intermediate** – HackerRank (2025)
- Microsoft Excel Basics to Advance** – Udemy (2025)

Education

Gokhale Institute of Politics and Economics (GIPE), Pune

2024 – 2026

MSc Economics – CGPA: Pursuing

Atma Ram Sanatan Dharma College (ARSD), Delhi University

2020 – 2023

BA Economics – CGPA: 7.652

DAV Public School, Patna

2020

12th Grade – CGPA: 9.28
